Analysis

2013-14 Data

- Year 1 – 0% of children attending a sporting club REGULARLY – target for 2014/15
- Year 2 – 36% of children attended dance (only club available) – target for 2014/15
- Year 3 – 52% of children attended a club, 40% attending regularly
- Year 4 – 54% of children attended a club regularly
- Year 5 – 85% of children attended a club regularly
- Year 6 – 71% attended a club regularly

2014-15 Data

- Year 1 – 40% of children have attended a club - +40%
- Year 2 – 36% of children have attended a club - +36%
- Year 3 – 40% of children have attended a club - -12% (ensure more clubs for year 3 spring/summer and target children) BUT 4% more children from this cohort are attending clubs compared to when they were in year 2
- Year 4 – 42% of children have so far attended a club - -12% (ensure more clubs and target children) 10% less attending clubs compared to when they were in year 3
- Year 5 – 65% of children have attended a club - -20% BUT 11% more children are attending clubs compared to when they were in year 4
- Year 6 – 83% of children have attended a club - +12% on last year's year 6. 2% less are attending a club from when they were in year 5

2015-16 (337 children on role including reception.) approx. 282 for the purpose of this data

Key findings

193 children across school from Year 1-Year 6, currently take part in extra-curricular school sport. 68%

16 SEN taking part in extra-curricular school sport out of 36. 44%

85 PP taking part in extra-curricular school sport out of 124. 69%

126 children across school from Year 1-Year 6, currently take part in out of school sport. 45%

8 SEN children take part in out of school sport out of 36 on SEN register. 22%

49 PP children take part in out of school sport out of 124 PP in the school. 40%

- A huge improvement on intra-competitions over 3 years. A 100% improvement for all year groups being able to participate in intra-competitions other than Sports Day.
- Data recorded from this year shows that we need to target clubs at KS1 as percentages of participation remain below those of KS2. This has been a 3-year trend; however, it is improving. The reason for the difference in participation maybe due to the lack of KS1 clubs in comparison to KS2 as KS1 Children are more tired by the end of the school day and have previously found clubs a big commitment.
- We need to focus on increasing participation rates in lower KS2- particularly Year 3 for inter-competitions. We have started and hosted a Year3/4 Shiremoor Summer Football Cup this year and will be doing so annually as a means to aim to improve this. Most of the competitions for Year 3 have

surrounded football and rugby. We need to address this with LEA sport competitions providers to improve for the future.

- We need to offer more opportunity for Year 1 to participate in inter-competitions. This could be done by holding a multiskills festival with another school, as we did with Year 2 earlier in the year. Also speak to LEA about the gap.
- Across the school we need to get more children participating in sport out of school. We do offer links with local clubs, have noticeboards and send out information leaflets, but lack of commitment and travel, is often the downfall for levels of participation.
-

Targets

- Increase number of SEN attending extra-curricular clubs and inter-competitions.
- Increase number of inter-competitions attended by Year 1 and Year 3.
- Increase the number of PP and SEN taking part in sports out of school. 30% target for SEN and 45% target for PP.
- Provide a more diverse selection of sport to target non-participants.
- Continue to offer Health afternoons and taster sessions throughout year to enable all children to access a variety of sports.
- Offer lunchtime clubs for KS1 to address non-participants in comparison to KS2
