

2014-15 Sport Premium Review

Invited specialist coaches from professional bodies in to coach children and upskill teachers. We work closely with many coaches from a variety of sports who not only help develop children's skills and knowledge to a high level, but also team teach with our staff to deliver lessons to a high standard, ensuring they have the skills and capabilities to deliver outstanding P.E.

Continue to achieve high levels of participation in sporting competitions. We use our Sport Premium money to fund transport to competitions at various sites across North Tyneside and Newcastle.

Staff CPD. We closely monitor staff performance and confidence in delivering successful PE lessons. Staff continually receive in-school training and support, and further benefit from attending numerous training and CPD opportunities to equip them with the skills and understanding to deliver outstanding PE.

Equipment. Children have access to an excellent range of PE equipment to support in their lessons and we are always auditing and checking resources to make sure high quality PE is being taught.

Release of the P.E. Manager to monitor the quality of P.E. across school, to provide support and challenge where required and to deliver high-quality CPD for our own staff and those from other schools.
